What’s in My Bag //
Jessica Alba, Actress and Co-founder, The Honest Company

To the Comic-Con crowd, she’s the Invisible Woman from the Fantastic Four films. To People and OK! disciples, she’s a hard-working mother of two who just launched a line of baby and family products called The Honest Company (honest.com). To Maxim readers, she’s, you know, a total babe. Yes, 30-year-old Jessica Alba wears many hats—and more than a few kinds of makeup while traveling. —Chris Clayton

TRAVEL TIPS: LUXE city guides are my favorite.

BEAUTY: La Mer Eye Concentrate, which I apply when I get settled in my seat. Yon-Ka Phyto-Contour eye cream, which I apply when landing. I’ve just gotten into Vapour organic beauty products for a light liquid foundation, cream blush and lip conditioner, as well as Laura Mercier Secret Camouflage concealer and Dolce & Gabbana mascara.

LUGGAGE: If I’m traveling without my kids, I can get away with just a carry-on, but 99.9 percent of the time I check and carry my bags on. RIMOWA’s Topas line is my favorite.

IN-FLIGHT STYLE: If I’m on a long flight, I’ll always bring a cozy change of clothes to wear, like a loose, harem-style cotton pant, soft, baggy T-shirt, lightweight sweater and cozy socks. Or I might wear a blazer, soft T-shirt and scarf with skinny jeans that stretch and ballet flats.

PERSONAL CARE MUSTS: The Honest Company lotion and body oil for my hands and feet and The Honest Company hand sanitizer and all-over wipes.

Vapour, one of Alba’s fave cosmetic lines, donates 100 percent of the profits from its HONOR Elixir Plumping Gloss to breast cancer research.

Airport Insider //
Barcelona-El Prat Airport (BCN)

MILES FROM DOWNTOWN BARCELONA: 8
NUMBER OF TERMINALS: 2

In 2009, the second-largest airport in Spain behind Madrid Barajas added Terminal 1 to handle the bulk of its international flights. Two years later, airport reviewer Skytrax named El Prat the “Best Airport in Southern Europe.” Coincidence? We think not. Read on to learn more about the already legendary “T-1.”

Architectural Pedigree //
Renowned postmodern architect Ricardo Bofill designed the sword-shaped structure, which boasts gleaming white granite and floor-to-ceiling windows offering killer views of downtown Barcelona.

Environmentally Sound //
Terminal 1’s roof is outfitted with hundreds of solar panels that heat water throughout the airport.

Socially Conscious //
Both terminals at El Prat feature “spaces for solidarity”—kiosks for nonprofits to publicize their efforts.

Eat and Drink Local //
Grab a bite at Mussol, a sit-down spot serving meats and produce sourced from Catalan farms, or take the edge off with a Spanish brew from the Medas beer bar.
